

A black bear is the central figure, sitting upright in a snowy, nighttime setting. The bear has thick black fur, yellow eyes, and a rainbow-colored patch on its snout. It is holding a large, glowing yellow sign in front of its chest. The background is a dark blue night sky with white snowflakes falling. The ground is covered in white snow with blue-tinted snowflakes scattered around. The bear's paws are visible, showing pink pads.

I will not
"work together"
to repress science
or communication of
science for political
expediency~
no matter whose
politics are
inconvenienced.
